Dear Prospective Customer:

ATL acknowledges your accelerated delivery requirement, and we will make every effort to meet that deadline. Please understand, however, that expedited fabrication involves processing expediciencies and precludes several Stop & Hold inspections normally applied to custom manufacture.

ATL's Limited Warranty of applicable physical strength requirements shall remain in force. However, occasional compromises must be shouldered by the customer when extreme rush delivery conditions are imposed.

If you can accommodate these uncertainties, kindly confirm your acceptance by signing below and returning this statement promptly to ATL by fax, courier or overnight express.

Thank you,

ATL FUEL CELLS
