

NEWS RELEASE: ATL CHEM-FLEX® EMERGENCY HOLDING TANKS

Aero Tec Laboratories Inc. (ATL) of Ramsey, New Jersey manufactures “**Chem-Flex®**” Collapsible Bladder Tanks for Nuclear, Biological and Chemical DECONtamination operations. ATL **Chem-Flex®** Bladders are used by Police and Fire Departments, Hospitals, Defense Agencies, Emergency Management Crews, and Hazmat Teams for waste water holding during emergency outbreaks.

ATL’s **Chem-Flex®** Bladder Tanks are essential companions to stationary DECON chambers or Mobile Decontamination Showering Trailers, providing the added insurance of extra holding capacity. **Chem-Flex®** bladders are available in sizes ranging from 25 gallons to 10,000 gallons, and they provide inexpensive fluid storage during DECON, HAZMAT and Emergency Clean-up practice exercises as well.

Complete with common FNPT fittings, **Chem-Flex®** bladders are easily collapsed and stored, making **Chem-Flex®** bladder tanks a very cost effective part of any Homeland Security operation.
